Report of Independent Certified Public Accountants

Board of Directors
World Resources Institute and Subsidiary

We have audited the accompanying consolidated statement of financial position of the World Resources Institute and Subsidiary (the Institute) as of September 30, 2003, and the related consolidated statements of activities, the consolidated changes in net assets and consolidated cash flows for the year then ended. These consolidated financial statements are the responsibility of the Institute's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. The consolidated financial statements of World Resources Institute as of and for the year ended September 30, 2002, were audited by other auditors whose report dated December 3, 2002 expressed an unqualified opinion on those consolidated financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2003 consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Institute as of September 30, 2003, and the consolidated changes in its net assets and consolidated cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 4, 2003, on our consideration of the Institute's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the 2003 basic consolidated financial statements of the Institute taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic consolidated financial statements. The accompanying supplemental schedules of functional expenses, indirect cost rate and fringe benefits rate calculations are also presented for purposes of additional analysis and are not a required part of the basic consolidated financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.

Notes to Consolidated Financial Statements

September 30, 2003 and 2002

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Principles of Consolidation

World Resources Institute (the Institute) is an independent research and policy institute founded in 1982 to help governments, environmental and development organizations, and private businesses address a fundamental question as to how societies can meet basic human needs and nurture economic growth without undermining the natural resource base and environmental integrity.

The Institute's work is carried out by an approximately 140-member interdisciplinary staff, strong in the sciences and economics and augmented by a network of advisors, collaborators, international fellows, and cooperating institutes in more than 50 countries. The Institute currently focuses on four broad themes: (1) promoting new paths for development, (2) halting the degradation of biological resources, (3) preventing dangerous human-caused change in the earth's climate, and (4) fostering sustainable enterprises.

The Internal Revenue Service (IRS) has classified the Institute as exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC), as a publicly supported not-for-profit organization.

The World Resources Institute Fund (WRIF) is a not-for-profit organization created in 1986 as a supporting organization to the World Resources Institute and is included in these consolidated financial statements. Prior to fiscal year 2002, WRIF had no activities. Commencing in 2002, WRIF activities include the operation of a capital campaign. The IRS has classified WRIF as exempt from federal income taxes under Section 501(c)(3) of the IRC. WRIF is an entity described under Section 509(a)(3) of the IRC and therefore not a private foundation.

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Classification of Net Assets

Activities of the Institute are recorded in the following net asset categories:

Unrestricted Funds:

Operating—Unrestricted revenues and operating expenses of the Institute. Current investment earnings are available to support current operations.

Designated—Working Capital Reserve—Amounts designated by the Board of Directors of the Institute to be maintained as part of a reserve and used to support certain specific future activities as defined by the Board of Directors.

Designated—Other—Amounts designated by the Board of Directors to be used in a manner similar to an endowment.

World Resources Institute and Subsidiary

Notes to Consolidated Financial Statements—Continued

September 30, 2003 and 2002

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

Classification of Net Assets—Continued

Temporarily Restricted—Contributions restricted, as to time or purpose, by the donor. When the purpose or time period restriction is met, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statement of activities as net assets released from restrictions.

Permanently Restricted—Funds that are restricted by donors requiring that the principal be invested in perpetuity. The earnings on these funds are unrestricted and are used for operations in accordance with a spending policy approved by the Board of Directors.

Revenue Recognition

Contributions, including unconditional promises to give, are recognized as revenue in the period received. Contributions are reported as increases in the appropriate category of net assets, except for the contributions that impose restrictions that are met in the same fiscal year they are received, which are included in unrestricted revenues.

Income from grants and contracts is currently recorded as unrestricted revenue when the costs are incurred. Amounts received that have not been expended are recorded as deferred revenue. The amount of expenses incurred in excess of funds received is included in grants and contracts receivable.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Institute considers all highly liquid investment instruments purchased with an initial maturity of three months or less to be cash equivalents.

Investments

The Institute records its investments at fair market value based on quoted market prices.

Furniture, Fixtures and Equipment

Furniture, fixtures, and equipment are recorded at cost. Depreciation is recorded on the straight-line basis over estimated useful lives that range from three to five years. Leasehold improvements are amortized over the shorter of their useful lives or the lease term. Assets purchased under a capital lease are recorded as an asset and a corresponding obligation at the beginning of the lease term. The recorded amount is equal to the present value of the minimum lease payments. Leased assets are amortized over the shorter of their useful lives or the lease term. When assets are retired or sold, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss arising from such disposition is included in the consolidated statement of activities.

Notes to Consolidated Financial Statements—Continued

September 30, 2003 and 2002

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

Costs Subject to Audit

The Institute's costs under its government grants and cooperative agreements are subject to audit by the awarding agencies. Management of the Institute does not believe that the results of such audits would have a material impact on the financial position and operating results of the Institute.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Cash is held at one financial institution in excess of federally insured amounts. At September 30, 2003 and 2002, \$1,020,820 and \$2,683,228, respectively, was held at that institution. The Institute has not incurred any losses on these funds.

NOTE B—INVESTMENTS

As of September 30, 2003 and 2002, investments were as follows:

	2003	2002
Short-term investments	\$ 1,284,694	\$ 9,941,997

NOTE E—OBLIGATIONS UNDER CAPITAL LEASES

The Institute is obligated under capital lease agreements for certain copy equipment. The aggregate discounted lease payments are recorded as a liability. Obligations under capital leases and the fair market values of the related leased assets are capitalized and amortized over the related lease periods. Total assets capitalized pursuant to such agreements, and the related accumulated amortization at September 30, 2003 and 2002, were as follows:

	2003	2002
Equipment under capital lease	\$ 170,676	\$ 139,012
Less accumulated amortization	(45,037)	(13,901)
Equipment under capital lease, net	\$ 125,639	\$ 125,111

The future minimum lease payments under the capital lease agreements and the present value of the minimum lease payments are as follows:

September 30,

2004	\$ 40,792
2005	40,792
2006	40,792
2007	23,992
2008	1,798
Total future minimum lease payments	\$ 148,166
Less: amount representing interest	(17,795)
Present value of minimum lease payments	\$ 130,371

Interest expense related to the capital leases was \$9,907 and \$46,529, respectively, for the years ended September 30, 2003 and 2002.

NOTE F—OFFICE LEASE COMMITMENTS AND RENT ABATEMENT

The Institute has entered into various operating lease agreements. During 1999, the Institute relocated to a new office building, under a lease which expires in February 2009. As part of the office building lease, the Institute received one month of free rent. This rent abatement is being amortized on a straight-line basis over the life of the lease as a reduction of rent expense.

World Resources Institute and Subsidiary

Notes to Consolidated Financial Statements—Continued

September 30, 2003 and 2002

NOTE F—OFFICE LEASE COMMITMENTS AND RENT ABATEMENT—Continued

The future minimum lease payments are as follows as of September 30, 2003:

September 30,

2004	\$	1,367,634
2005		1,411,482
2006		1,439,742
2007		1,468,509
2008		1,497,909
Thereafter		502,598
Total	\$	7,687,874

Rental expense for these leases was \$1,390,198 and \$1,316,934 for the years ended September 30, 2003 and 2002, respectively.

NOTE G—LOANS PAYABLE

During fiscal year 1999, the Institute obtained a \$500,000 loan at Bank of America, NA, with a maturity date of March 31, 2004. The balance outstanding on this loan at September 30, 2003 and 2002, was \$240,221 and \$290,715, respectively. The interest rate on the loan is 6.55 percent. Interest expense for the years ending September 30, 2003 and 2002, was \$17,787 and \$21,023, respectively. The loan agreement contains a covenant that requires the Institute to maintain a minimum balance of \$720,000 in a collateral bank account.

To manage short-term cash flow effectively, the Institute maintains a line-of-credit. During fiscal year 2001, the Institute obtained a \$3,000,000 line-of-credit at Bank of America, NA with a maturity date of April 30, 2004. The balance outstanding on this line-of-credit at September 30, 2003 and 2002, was \$2,000,000 and \$1,500,000, respectively. The interest rate on the line-of-credit is based on London Interbank Offered Rate (LIBOR) plus 1.5 percent (2.6200 percent and 3.3137 percent at September 30, 2003 and 2002, respectively). The loan agreement contains a covenant which requires the Institute to maintain unrestricted, unencumbered liquid assets (marketable securities, cash and cash equivalents) of not less than \$3,000,000.

World Resources Institute and Subsidiary

Notes to Consolidated Financial Statements—Continued

September 30, 2003 and 2002

NOTE H—FUNDS HELD FOR OTHERS

The Ford Foundation gave a grant (for endowment) of \$1,200,000 to the African Centre for Technology Studies (ACTS) (an unrelated organization) in Nairobi, Kenya. ACTS requested the Institute to hold the funds in an interest-bearing account until further notice, earning interest of \$77,111 as of September 30, 2003.

NOTE I—PERMANENTLY RESTRICTED NET ASSETS

In 1987, the MacArthur Foundation gave the Institute a challenge loan of \$12,516,000 with the understanding that it would forgive this loan to the extent that the Institute raised qualifying matching funds under a comprehensive development program. The purpose of the challenge loan was to facilitate the establishment of a permanent endowment for the Institute.

After the Institute successfully met the terms of the loan agreement, an endowment was formally established at the level of \$25 million (cost basis) on January 1, 1991, with earnings on the corpus expendable to support any activities of the Institute. The Institute's Board of Directors adopted a policy statement entitled Endowment Fund: Purposes, Goals, and Policies, which establishes spending rules for future withdrawals of earnings to cover portions of the Institute's annual operating budget while protecting the value of the endowment against inflation. Investment earnings from the endowment (net of investment expenses) are recognized as unrestricted designated revenue. During 2003 and 2002, \$2,397,064 and \$2,378,042, respectively, of these earnings were transferred from unrestricted designated to unrestricted operating net assets in accordance with the policy statement referred to above. The Board of Directors also authorized management to draw down an additional amount to cover capital campaign expenses during the period January 1, 2002 to December 31, 2005. As of September 30, 2003, \$1,785,777 was drawn down for this purpose.

In 2003, an individual contributed \$100,000 for the purpose of creating an endowment to enable the Institute to have interns. Investment earnings from the endowment are recognized as unrestricted designated revenue.

NOTE K—SIGNIFICANT CONTRACT

The Institute initiates and completes a substantial portion of its projects within the Institutions and Governance and Information Programs pursuant to a single cooperative agreement from the U.S. Agency for International Development. The revenue pursuant to this cooperative agreement was \$1,987,174 for the year ended September 30, 2003 and \$2,559,521 for the year ended September 30, 2002. Such revenue accounted for approximately 17 percent of total federal and non-federal grants, contributions, and cooperative agreement revenues during the year ended September 30, 2003, and approximately 10 percent for the year ended September 30, 2002.

NOTE L—EMPLOYEE BENEFITS

The Institute contributes either 5 percent or 8 percent (based on years of service) of eligible employees' annual earnings, as defined in Plan agreements, to individually owned tax-deferred annuity contracts under a defined contribution annuity plan. The amount contributed to the Plan for the years ended September 30, 2003 and 2002, was \$550,588 and \$528,527, respectively.

NOTE M—RELATED-PARTY TRANSACTION

The Institute provides bookkeeping services for a foundation from which the Institute receives grant awards for research studies. During fiscal 2003 and 2002, the Institute recorded grant revenue of \$378,362 and \$281,473, respectively, from the foundation. In addition, the Institute received \$8,382 and \$15,925, respectively, from the foundation for bookkeeping services.

Notes to Schedule of Expenditures of Federal Awards

Year ended September 30, 2003

NOTE A—BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes all federal grants to the Institute that had expenditure activity during the year ended September 30, 2003. This schedule has been prepared on the accrual basis of accounting for expenditures in accordance with accounting principles generally accepted in the United States of America. Grant revenues and expenditures are recorded for financial reporting purposes when the Institute has met the qualifications for the respective grants. Grant revenues are equivalent to grant expenditures. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-profit Organizations Receiving Federal Awards*.

NOTE B—SUBRECIPIENTS

Of the federal expenditures presented in this schedule, the Institute provided federal awards to subrecipients under the U.S. Agency for International Development grants totaling \$636,351.

NOTE C—CATALOG OF FEDERAL DOMESTIC ASSISTANCE

Catalog of Federal Domestic Assistance (CFDA) numbers are not assigned to the U.S. Agency for International Development grants and contracts.

**Report of Independent Certified Public Accountants on
Compliance and on Internal Control over Financial
Reporting Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

Board of Directors
World Resources Institute

We have audited the consolidated financial statements of the World Resources Institute (the Institute) as of and for the year ended September 30, 2003, and have issued our report thereon dated December 4, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Institute's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance that are required to be reported under *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Institute's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce, to a relatively low level, the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Institute's Board, management, and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

**Report of Independent Certified Public Accountants on
Compliance with Requirements Applicable to Each
Major Program and Internal Control over Compliance in
Accordance with OMB Circular A-133**

Board of Directors
World Resources Institute

Compliance

We have audited the compliance of the World Resources Institute (the Institute) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to its major federal programs for the year ended September 30, 2003. The Institute's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal programs is the responsibility of the Institute's management. Our responsibility is to express an opinion on the Institute's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Institute's compliance with those requirements, and performing such other procedures as we considered necessary under the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Institute's compliance with those requirements.

In our opinion, the Institute complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2003.

Internal Control over Compliance

The management of the Institute is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Institute's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce, to a relatively low level, the risk that non-compliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Institute's Board, management, and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Note to Schedule of Indirect Cost and Fringe Benefit Rate Calculations

Year ended September 30, 2003

NOTE A—BASIS OF ACCOUNTING

The calculation of allocation rates is prepared in accordance with the methodologies used by the Institute in negotiating its indirect facility cost, fringe benefit, and general and administrative cost rates with its oversight agency, the U.S. Agency for International Development.

Facility Cost Rate—represents total indirect costs less unallowable costs as a percentage of total direct costs, which includes fringe benefit costs, less all charges representing costs incurred pursuant to subcontract or subgrant agreements and unallowable costs.

Fringe Benefit Rate—represents the cost of total fringe benefit expenses as a percentage of total salary and wage charges that result in related fringe benefit expenses. Fringe benefit costs are included as a direct cost in the calculation of both the overhead and the general and administrative cost rates.

General and Administrative Rate—represents all general and administrative expenses as a percentage of direct costs incurred, less charges representing costs incurred pursuant to subcontract or subgrant agreements.

Subgrant Pool Rate—represents subgrant-related salaries as a percentage of total subgrant costs.
