

## Index

## A

## Access

- Access Principles (Rio Declaration), 71
- common pool resources, 40–41
- as determinant of rural wealth, 16
- effectiveness of efforts to improve, 71
- to financing and credit, 86, 98–99, 109
- governance issues, 3–4, 19, 23, 70–71, 75–76
- to information, 56, 71, 73–75, 159
- to justice, 71, 76–77
- Millennium Development Goals, 159
- obstacles to, 71, 74
- in poverty reduction strategy papers, 165, 167–168, 170
- privatization of resources, 42
- women's, 75–76, 170
- See also* Tenure

## Accountability

- in democratic processes, 69
- in governance, 64, 69, 73
- information needs for, 73–74
- in Millennium Development Goals, 154, 157

## Africa

- agricultural economy, 4, 31, 35
- common pool resources, 40
- fisheries incomes, 35
- Millennium Development Goals, 154
- poverty trends, 7, 10
- See also* specific country

## Agriculture

- climate change and, 16
- economic significance of, for poor, 35, 39, 45
- ecosystem management to improve, 81–82
- environmental income and, 34, 35, 39, 45
- export economy, 35
- fair-trade certification, 94–95
- Green Revolution, 18–19, 45
- information needs of rural poor, 73, 75
- organic products, 95, 100–101
- productivity, 17
- product losses in storage and processing, 99
- strategies for poverty reduction, 18–19
- trade and subsidization policies, 30–31
- watershed management in India and, 127
- woodlands management in Tanzania and, 131, 136

## AIDS/HIV, 10–11, 22

## Argentina, 14

## Asia

- Millennium Development Goals, 154
- See also* specific country

## B

- Bangladesh, 68–69
  - household spending patterns, 14
- Bioprospecting, 72, 149–150
- Bolivia, 63, 67, 87, 105
  - environmental income, 46
  - poverty profile, 6
  - poverty reduction strategy papers, 166, 168–169, 170
- Botswana
  - common pool resources, 40
  - environmental income, 44
- Brazil, 25, 75, 98, 104
  - environmental income, 48
  - payment for environmental service programs, 108

## C

- Cambodia, 27, 159
  - common pool resources, 40
  - environmental income, 49
  - fisheries, 38, 158
  - poverty reduction strategy papers, 166, 169, 170
- Cameroon, 67, 86
- Caribbean countries. *See* Latin America and Caribbean
- Chad, 50
- Children
  - educational attainment, 52
  - health risks for, 21
  - household responsibilities, 52
  - malnutrition effects, 21
  - Millennium Development Goals, 154
- Chile, 25
  - poverty trends, 10
- China
  - experimental land reforms, 86
  - poverty trends, 7, 10, 11
- Climate change, 13, 16, 22
- Coffee, 94, 98, 99
- Colombia, 69
  - payment for environmental services in, 106, 107
- Co-management partnerships, 93–96
- Commercialization and marketing
  - commodity chain, 99
  - cooperatives, 94–95, 99–100
  - fair-trade certification, 94–95, 100
  - information needs, 73, 97, 102–103
  - infrastructure needs, 97
  - niche products and services, 17–18
  - obstacles to improving environmental income, 97
  - organic products, 94–95, 100–101
  - private sector partnerships, 101–104
  - problems of ecosystem commercialization, 105
  - product processing strategies, 99
  - training and support, 97

- transportation infrastructure for, 97, 98
  - Common pool resources
    - communal tenure and, 60
    - environmental income, 13, 39–41
    - locally managed marine areas, 144–145
    - management principles, 61
    - Millennium Development Goals and, 158
    - supply and access, 40–41
    - tenure security, 19–23
    - tragedy of the commons, 60
    - types of, 13
  - Community-based natural resources management, 56, 66–67, 70, 72, 89–90, 114, 169
  - Community institutions and practices
    - benefits of Namibian conservancy program, 118–119
    - civil protests, 25
    - conservancy management, 114
    - decentralized environmental management, 62–70, 89
    - ecosystem management, 23
    - equitable distribution of ecosystem management revenues, 90–91
    - equitable participation in decision-making, 91–92
    - fisheries management in Fiji, 144–145, 148, 151
    - maintenance of elite advantage, 24
    - outcomes of fight against illegal logging in Indonesia, 141
    - participation in governance, 91–92
    - tenurial rights, 56, 58, 59–61, 83–85
    - value of ecosystem goods and services, 51–52
    - woodlands management project in Tanzania and, 132–133
    - See also* Common pool resources
  - Conservancies of Namibia
    - benefits for women, 117–118
